

Fluoropolymer flexible joint **Flexibile Joint**

EX JOINT

A flexible joint, fluoropolymer bellows with special SUS blade with excellent perpendicular angle displacement absorption.

Intended Purpose

Against differential settlement

Dimension

Nominal Dia.		Face to face length
mm	inch	
125~300	5~12	500mm~700mm

● Face-to-face length is available in 100mm increment. But available minimum length is different by size, please contact our sales representatives for further details.

Fluoropolymer flexible joint **Liquid Chlorine Hose**

LCL HOSE

A flexible hose with PVC blade for liquid chlorine. It has excellent corrosion resistance and electrical conductivity.

Intended Purpose

For incoming/outgoing tanker transfer

Dimension

Nominal Dia.		Face to face length
mm	inch	
20~40	3/4~1 1/2	500mm~600mm

● Face-to-face length is available in 100mm increment. But available minimum length is different by size, please contact our sales representatives for further details.

Fluoropolymer flexible joint **Sanitary Hose**

SANIFLEX

A ISO 2852 (ferrule) & 2853 (screw) compliance product. Available in corrugated or straight type.

Intended Purpose

For food manufacturing industries

Dimension

Nominal Dia.		Face to face length
mm	inch	
25 • 40 • 50	1 • 1 1/2 • 2	500mm~
65 • 80 • 100	2 1/2 • 3 • 4	800mm~

● Face-to-face length is available in 100mm increment. But available minimum length is different by size, please contact our sales representatives for further details.

Fluoropolymer flexible joint **Pressure Resistant Hose**

MULTIFLEX

Pressure resistant hose. Maximum pressure is up to 2.0 Mpa {204kg/cm²} at 6A.

Intended Purpose

For high pressure lines

Dimension

Nominal Dia.		Face to face length
mm	inch	
6~25	1/4~1	~5000mm

● Face-to-face length is available in 100mm increment. But available minimum length is different by size, please contact our sales representatives for further details.
